

# Rebuild with Confidence

Building high quality architecturally designed homes in the Christchurch & Canterbury region represents our core business. And because the investment in land and construction can often be considerable, we will do everything possible to develop each project alongside our clients to ensure they maximise its true potential and also accommodate all those special and unique features which distinguish it from the norm.

In addition to providing superior building expertise and tradecraft, our involvement also encompasses a comprehensive Project Management role so that we maintain total quality control and can more effectively co-ordinate the activities of our various sub-contractors. The end result is that you can be assured that we will meet all our obligations in terms of pre-planned target dates and on-site approvals.

If you are rebuilding or renovating your home, now's the ideal time to give us a call. We understand that every new residential building or renovation offers a unique opportunity for you to create a legacy and valuable asset for you and your family's future. Having worked on a wide variety of design styles the Whyte Team offers you extensive first-hand experience and the highest trade expertise – so you know you are in the right hands.

## Modular Homes

We have a range of modular home plans constructed in **Metra Panel** - a quick, cost effective building system. Metra Panel is not dimensionally stable but during an earthquake, provides a strong, safe building that exceeds the bracing elements of the NZ Building Code.

Call us today to find out more about these and other Home Designs. Phone 0800 333 360.

### You're Protected By Our Ten Year Comprehensive Guarantee

Our 10 year fully comprehensive guarantee (covering workmanship, building products and completion of your contract) ensures complete peace of mind and that you're protected. In the unlikely event your workmanship or building products are defective, we will work for you for free to fix it, or pay a competitor to do so. We can't be any fairer than that.
